VI. BOARD DIRECTOR REPORT

Sean Gorman, Board Director, updated the Board Members on the discussion at the June 18, 2008 Education Subcommittee meeting. The Education Subcommittee heard an update from Pamela Jefferies on the status of the pilot DEU program that is scheduled to be implemented at three sites for the 2008 fall academic semester. The Education Subcommittee discussed four items at the June 18 meeting:

- 1. Faculty to Student Ratios The Subcommittee agreed that the current 1 to 10 requirement for clinical and observation settings is appropriate and will table further consideration of any possible changes.
- 2. Preceptor Requirements The Subcommittee discussed amending current requirements that preceptors be an RN with at least 3 years experience. The Subcommittee considered adding a provision to allow an RN with one year's experience and certification in a specialty area to serve as a

preceptor in that specialty. The NCSBN's proposed model rule change was also discussed, which would change the minimum faculty education provision to require at least a master's in nursing or a doctorate in nursing.

- 3. Faculty Qualifications The Subcommittee will reconsider at the next meeting.
- 4. Simulation The Subcommittee discussed how other states address simulation experience and how it might complement or replace some clinical experience. The Subcommittee is considering a recommendation to the Board on a rule amendment that would broadly define simulation alongside clinical and observational experience definitions without a reduction of required clinical experience or guidance on the use of simulations in place of clinical requirements. The next meeting is tentatively scheduled for July 16, 2008.
- Mr. Gorman reminded the Board of the upcoming Advance Practice Nurse Subcommittee meeting scheduled for July 9, 2008.
- Mr. Gorman requested Board discussion on recent compliance letters sent to nursing education programs based on one or two of two issues identified as common compliance concerns based on 2007 annual reports:
- 1. Minimum faculty requirements documentation Several programs did not provide documentation that all faculty are either Master's prepared or are making progress towards a Master's Degree in Nursing.
- 2. Part-time to Full-time faculty ratio Several programs reported accounting for the ratio in relation to total hours for part-time faculty as compared to total hours of instruction for full-time faculty.

The Board Members discussed and agreed that their interpretation of the rule requirement is that total number of full-time faculty must exceed the total number of part-time faculty.
